### 3. About This Policy

- 3.1. This policy applies to all users and will come into effect after the POPIA compliance audit has been conducted.
- 3.2. The types of information that BMM may be required to handle include details of current, past and prospective employees and clients, suppliers, and others that BMM communicates with. By way of example, in terms of the BMM POPIA Gap Analysis and Risk Report, BMM processes personal information pertaining to gender, sex, marital status, colour, age and the like for compliance and legal documentation purposes. BMM also processes special purpose information pertaining to race or ethnic origin, religious beliefs, trade union membership and the like for purposes of recruitment, employment equity statistics and for the facilitation of union fees and memberships. The information, which may be held on paper or on a computer or other media, is subject to certain legal safeguards specified in POPIA and other regulations. POPIA imposes restrictions on how BMM may use that information.
- 3.3. POPIA applies to the automated or non-automated processing of personal information entered into a record in any form (provided that when the recorded personal information is processed by non-automated means, it forms part of a filing system or is intended to form part thereof) by or for BMM.
- 3.4. This policy sets out BMM's rules on personal information protection and the legal conditions that must be satisfied in relation to obtaining, handling, processing, storage, transportation and destruction of personal information.
- 3.5. A list of 'Do and Do Nots' under POPIA forms a part of this policy.
- 3.6. This policy does not form part of any employee's contract of employment and may be amended at any time.
- 3.7. The IO is responsible for ensuring compliance with POPIA and with this policy. That post is held by Pushpender Singla, Executive Director, and Chief Financial Officer, [PSingla@vedantaresources.co.za](mailto:PSingla@vedantaresources.co.za), +27 011 685 3963. Any questions or concerns about the operation of this policy should be referred in the first instance to the IO.
- 3.8. If you consider that the policy has not been followed in respect of personal information about yourself or others, you should raise the matter with your line manager or the IO.

## 4. Purpose of The Policy

- 4.1. The purpose of the policy is to establish management direction and high-level objectives for regulating the manner in which personal information is processed and to provide for remedies in cases where personal information is not handled accordingly. Further purposes of the policy include:
- 4.1.1. the supplementation of BMM's existing privacy policy and any other relevant documents and policies and to align it with POPIA;
  - 4.1.2. compliance with the requirements of POPIA;
  - 4.1.3. the identification and codification of documents and ensuring adequate protection and maintenance of accuracy of documents where required;
  - 4.1.4. providing a set framework and unified policy regarding the methods and procedures for the retention and destruction of documents;
  - 4.1.5. ensuring records that are no longer required or documents that are of no value are destroyed properly and in accordance with the data retention schedule of the Document / Record Retention Policy; and
  - 4.1.6. Providing assistance to employees in understanding the requirements relating to the protection of personal information and the retention and destruction of documents.

## 5. Processing Conditions

5.1. Anyone processing personal information must comply with the following eight processing conditions:

- 5.1.1. Condition 1: Accountability;
- 5.1.2. Condition 2: Processing Limitation;
- 5.1.3. Condition 3: Purpose Specification;
- 5.1.4. Condition 4: Further Processing Limitation;

### 5.2. Condition 1: Accountability

- 5.2.1. BMM must ensure that the processing conditions are complied with.<sup>1</sup>
- 5.2.2. BMM has appointed an IO to encourage and support BMM's overall compliance with POPIA.
- 5.2.3. The IO is responsible for drafting an information security policy, which will, among other things, address document retention, access to information and classification of data.
- 5.2.4. BMM will furthermore designate specific individuals to monitor compliance with information security standards within each business area.
- 5.2.5. Training or awareness sessions for employees on information security will be conducted on a regular basis.

- 5.3.2. Personal information may only be processed if, given the purpose for which it is processed, it is adequate, relevant and not excessive.<sup>3</sup>
- 5.3.3. There are a number of grounds that BMM may use in order to process personal information, please consult the IO when you collect any new type of personal information.

<sup>1</sup> See section 6 of POPIA.

<sup>2</sup> See section 10 of POPIA

<sup>3</sup> See section 13 of POPIA.

**5.3.5.** A data subject may withdraw consent at any time and such withdrawal of consent should be noted. A data subject may also object at any time on reasonable grounds, to the processing of its personal information, save if other legislation provides for such processing. BMM may then no longer process the personal information, unless it has another lawful justification for doing so.

**5.3.6.** Generally, personal information must be collected from the data subject directly except in certain circumstances which may include if the data subject has made personal information public or if collection from another source is necessary.<sup>4</sup>

**5.4. Condition 3: Purpose specification**

**5.4.1.** Personal information may only be collected for specific, explicitly defined and lawful reasons relating to the functions or activities of BMM, of which the data subject is made aware.<sup>5</sup>

**5.4.2.** Personal information will only be collected to the extent that it is required for the specific purpose notified to the data subject. Any personal information which is not necessary for that purpose will not be collected in the first place.

**5.4.3.** Once collected, personal information will only be processed for the specific purposes notified to the data subject when the personal information was first collected or for any other purposes specifically permitted by POPIA. This means that personal information will not be collected for one purpose and then used for another. If it becomes necessary to change the purpose for which the personal information is processed, the data subject will be informed of the new purpose before any processing occurs.

**5.4.4.** Records of personal information may only be kept for as long as necessary for achieving the purpose for which the information was collected or subsequently processed, unless:<sup>6</sup>

5.4.4.1. retention of the record is required or authorised by law;

5.4.4.2. the responsible party reasonably requires the record for lawful purposes related to its functions or activities;

5.4.4.3. retention of the record is required by a contract between the parties thereto; or

5.4.4.4. the data subject or a competent person where the data subject is a child has consented to the retention of the record

**5.4.5.** Personal information will therefore not be kept longer than is necessary for the purpose for which it was collected. This means that

<sup>6</sup> See section 14 of POPIA.

personal information must be destroyed or deleted in a manner that prevents its reconstruction in an intelligible form or be de-identified as soon as reasonably practicable after BMM is no longer authorised to retain the record. For guidance on how long certain personal information is likely to be kept before being destroyed, contact the IO or see the Document Retention Policy.

- 5.4.6. Records of personal information may be retained for longer for historical, statistical or research purposes if BMM has established appropriate safeguards against the records being used for any other purposes.
- 5.4.7. BMM must restrict processing of personal information if-
  - 5.4.7.1. its accuracy is contested by the data subject, for a period enabling BMM to verify the accuracy of the information;
  - 5.4.7.2. BMM no longer needs the personal information for achieving the purpose for which the information was collected or subsequently processed, but it has to be maintained for purposes of proof; or
  - 5.4.7.3. The processing is unlawful and the data subject opposes its destruction or deletion and requests the restriction of its use instead.
- 5.4.8. Such personal information may, with the exception of storage, only be processed for purposes of proof, or with the data subject's consent, or with the consent of a competent person in respect of a child, or for the protection of the rights of another natural or legal person or if such processing is in the public interest.
- 5.4.9. Where processing of personal information is restricted BMM must inform the data subject before lifting the restriction on processing.

#### 5.5. **Condition 4: Further processing limitation**

- 5.5.1. Further processing of personal information must be compatible with purpose of collection, unless the data subject has consented to such further processing.<sup>7</sup>
- 5.5.2. Where personal information is transferred to a third party for further processing, the further processing must be compatible with the purpose for which it was initially collected, unless the data subject has consented to such further processing or it is permitted in terms of POPIA.
- 5.5.3. If personal information is to be used for any other purpose the further consent of the data subject must be obtained. Where this is not possible, the IO should be consulted.

---

<sup>7</sup> See section 15 of POPIA.

**5.5.4.** Personal information may only be disclosed to other recipients in accordance with the provisions of the Personal Information Sharing Policy.

**5.5.5.** It is not incompatible if the information is used for historical, statistical or research purposes and BMM ensures that the further processing is carried out solely for such purposes and will not be published in an identifiable form.

**5.6. Condition 5: Information quality**

**5.6.1.** BMM must take reasonably practicable steps to ensure that personal information is complete, accurate, not misleading and updated where necessary in light of the purpose for which such information is collected.<sup>8</sup>

**5.6.2.** Information which is incorrect or misleading is not accurate and steps will therefore be taken to check the accuracy of any personal information at the point of collection and at regular intervals afterwards. Inaccurate or out-of-date information will be destroyed.

**5.6.3.** The IO will develop processes for:

5.6.3.1. checking the accuracy and completeness of records containing personal information;

5.6.3.4. making data subjects aware of these processes; and

**5.6.4.** The IO will furthermore put procedures in place to verify that records containing personal information remain relevant, accurate and up-to-date.

**5.7. Condition 6: Openness**

**5.7.1.** BMM must take reasonably practicable steps to ensure that the data subject is aware of:<sup>9</sup>

5.7.1.1. the information being collected and where the information is not collected from the data subject, the source from which it is collected;

5.7.1.2. the name and address of BMM;

5.7.1.3. the purpose for which the information is being collected;

5.7.1.4. whether or not the supply of the information by that data subject is voluntary or mandatory;

<sup>9</sup> See section 18 of POPIA.

- 5.7.1.6. any particular law authorising or requiring the collection of the information;
- 5.7.1.7. where applicable, the fact that the responsible party intends to transfer the information to a country or international organisation and the level of protection afforded to the information by that country or international organisation;
- 5.7.1.8. any further information such as the recipient or category of recipients of the information, the nature or category of the information and the existence of the right of access to and the right to rectify the information collected;
- 5.7.1.9. the existence of the right to object to the processing of personal information; and
- 5.7.1.10. the right to lodge a complaint to the Regulator and the contact details of the Regulator,

Which is necessary, having regard to the specific circumstances in which the information is or is not to be processed, to enable processing in respect of the data subject to be reasonable.

Compliance is not reasonably practicable in the circumstances of the particular case; or the information will (a) not be used in a form in which the data subject may be identified; or (b) be used for historical, statistical or research purposes.

## 6. Fair and Lawful Processing

- 6.1. POPIA is intended not to prevent the processing of personal information, but to ensure that it is done fairly and without adversely affecting the rights of the data subject.
- 6.2. For personal information to be processed lawfully, certain requirements have to be met. These may include, among other things, requirements that the data subject has consented to the processing, or that the processing is necessary for the legitimate interest of the responsible party or the party to whom the personal information is disclosed. In most cases when special personal information is being processed, the data subject's explicit consent to the processing of such information will be required. (However see the discussion in paragraph 6.5 below.)
- 6.3. Personal information about users may be processed for legal, personnel, administrative and management purposes and to enable the responsible party (i.e. BMM) to meet its legal obligations as an employer, for example to pay users, monitor their performance and to confer benefits in connection with their employment. Examples of when special personal information of users is likely to be processed are set out below:
  - 6.3.1. information about an employee's physical or mental health or condition in order to monitor sick leave and take decisions as to the employee's fitness for work;
  - 6.3.2. the employee's racial or ethnic origin or religious or similar information in order to monitor compliance with employment equity legislation; and

  - 6.4.2. To manage their account or relationship and to comply with their instructions or requests;
  - 6.4.3. To detect and prevent fraud and money laundering and/or in the interest of security and crime prevention;
  - 6.4.4. To assess and deal with complaints and requests;
  - 6.4.5. For operational, marketing, auditing, legal and record keeping requirements;
  - 6.4.6. To verify their identity or the identify of their beneficial owner;
  - 6.4.7. To transfer or process their personal information outside of the Republic of South Africa to such countries that may not offer the same

- level of data protection as the Republic of South Africa, including for cloud storage purposes and the use of any of BMM's websites;
- 6.4.8.** To comply with Applicable Laws, including lawful requests for information received from local or foreign law enforcement, government and tax collection agencies;
  - 6.4.9.** To record and/or monitor their telephone calls and electronic communications to/with BMM in order to accurately carry out their instructions and requests, to use as evidence and in the interests of crime prevention;
  - 6.4.10.** To conduct market research and provide them with information about BMM's products or services from time to time via email, telephone or other means (for example, events);
  - 6.4.11.** Where they have unsubscribed from certain direct marketing communications, to ensure that BMM does not send such direct marketing to them again;
  - 6.4.12.** To disclose their personal information to third parties where required or where it is not unlawful to do so;
  - 6.4.13.** To monitor, keep record of and have access to all forms of correspondence or communications received by or sent from BMM or any of its customers, suppliers, agents or contractors, including monitoring, recording and using as evidence all telephone communications between them and BMM;
  - 6.4.14.** To improve or evaluate the effectiveness of BMM's business or products, services or offerings; and
  - 6.4.15.** To prevent and control any disease.
- 6.5.** The prohibition on processing personal information does not apply if the -
- 6.5.1.** processing is carried out with the consent of a data subject;
  - 6.5.2.** processing is necessary for the establishment, exercise or defence of a right or obligation in law;
  - 6.5.3.** processing is necessary to comply with an obligation of international public law;
  - 6.5.4.** processing is for historical, statistical or research purposes to the extent that -
    - 6.5.4.1.** the purpose serves a public interest and the processing is necessary for the purpose concerned; or
    - 6.5.4.2.** it appears to be impossible or would involve a disproportionate effort to ask for consent, and sufficient guarantees are provided to ensure that the processing does not adversely affect the data subject's privacy to a disproportionate extent; or
- 6.6.** Information has deliberately been made public by the data subject.

## **7. Processing in Line with Data Subjects' Rights**

- 7.1.** Personal information will be processed in line with data subjects' rights. Data subjects have a right to:
- 7.1.1.** request access to any personal information held about them by BMM;
  - 7.1.2.** prevent the processing of their personal information for direct-marketing purposes;
  - 7.1.3.** ask to have inaccurate personal information amended; and
  - 7.1.4.** Object to any decision that significantly affects them being taken solely by a computer or other automated process.

## **8. Providing Information to Third Parties**

- 8.1.** Users dealing with enquiries from third parties should be careful about disclosing any personal information held by BMM. In particular, they should:
- 8.1.1.** check the identity of the person making the enquiry and whether they are legally entitled to receive the information they have requested
  - 8.1.2.** suggest that the third party puts their request in writing so the third party's identity and entitlement to the information may be verified;
  - 8.1.3.** refer to the IO for assistance in difficult situations; and
  - 8.1.4.** Where providing information to a third party, do so in accordance with the eight processing conditions.
- 8.2.** The PAIA manual should also be referred to.

## 9. Direct Marketing

- 9.1.** At the outset it should be noted that POPIA draws a distinction between direct marketing by means of unsolicited electronic communications and direct marketing in person or by mail or telephone. Several provisions in POPIA draw a distinction between these two types of marketing.
- 9.2.** "Direct marketing", as defined in POPIA, means to approach a data subject, either in person or by mail or electronic communication, for the direct or indirect purpose of:
- 9.2.1.** promoting or offering to supply, in the ordinary course of business, any goods or services to the data subject; or
  - 9.2.2.** Requesting the data subject to make a donation of any kind for any reason.
- 9.3.** "Electronic communication", in turn, is defined as "[a]ny text, voice, sound or image message sent over an electronic communications network which is stored in the network or in the recipient's terminal equipment until it is collected by the recipient" (our emphasis).
- 9.4.** When BMM does direct marketing, it must provide data subjects with an opt out. In addition, electronic direct marketing is stringently regulated under POPIA. If BMM processes personal information of a data subject for the purpose of direct marketing by means of any form of electronic communication, including automatic calling machines (i.e. machines that are able to do automated calls without human intervention),<sup>11</sup> facsimile machines, SMSs or e-mail is prohibited unless the data subject:
- 9.4.1.** has given his, her or its consent in the prescribed manner and form set out in regulations 6 of the POPIA Regulations to the processing; or
  - 9.4.2.** Is a customer of BMM, as defined in section 69 of POPIA.
